

C program to sort string in alphabetical order.

### Algorithm

1. Start
2. Input to sort string in alphabetical order.
3. temp, i, j
4.  $n = \text{strlen}(\text{string})$ ;
5. 

```
for (i = 0; i < n - 1; i++)
{
    for (j = i + 1; j < n; j++)
    {
        if (string[i] > string[j])
        {
            temp = string[i];
            string[i] = string[j];
            string[j] = temp;
        }
    }
}
```
6. Output the sorted string
7. Stop.
